

Prestige™ Professional

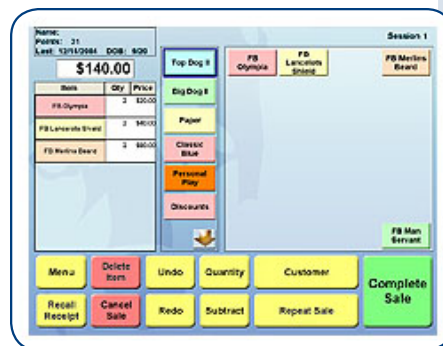

A leader in bingo point of sale systems

Prestige uses advanced touchscreen operation and intuitive management software to put hall operators in charge faster and easier than ever. And, just because it's so easy to use, does not mean it is not powerful. Prestige can easily handle the increase in transactions that you're looking for.

Point of sale made easy

Key Features

- Modular system that allows operators to choose their own functionality – simple on/off “switches”
- Enhanced security features including blower signal verifier, perm verification and winning card printouts
- Password protected at every level – control access rights by employee or function
- Seamless integration with blue dog products
- Hall set-up – easiest to use in the industry
 - Charities
 - Sessions
 - Payouts
 - Create/combine patterns
- Player tracking functions
 - Set up point systems as ratio to dollar value spent
 - Apply bonus points or reward systems
 - Add a “sales by points” option
- Customize configurations for your needs
