

BULLET BINGO™

BULLET BINGO™ is a quick bingo game that has three bingo numbers printed inside a large breakopen window. **BULLET BINGO™** can be used as an early bird game or a speed ball game. As the bingo numbers are called, the numbers on each card are large enough to be dabbed. Whoever dabs all three numbers first, wins.

There are six colors of index: blue, pink, green, yellow, orange, & red. One game consists of 155 non-duplicating tickets all one color of index. This makes the game very fast playing and selling!

BULLET BINGO™ allows you to have pulltab playability quality and is considered an actual legal bingo game in most states. Player demand will give the halls a chance to boost their profits.
